Detailed Frame Materials

Frame Material	PVCu	Windowboard	Whitegrain Betta
Frame colour	White	Fitting	Trim Finish
		Fitting finish	White PVC
Sash colour	White		
External cill	White 150mm cill		
Handle colour	Not applicable		
Locking	Not applicable		
Hinges	Not applicable		
Trickle Vent	No		

Glass type: 4:20:4 Double Glazed (1.4u)

I have had the 0.6u triple glazing, the 1.0u double glazing and the 1.4u double glazing unit demonstrated to me Via the energy loss lamp and it has helped me with my choice of window.

I have been made aware that the new levels of insulation about to be installed in my house will virtually stop the heat from escaping. Triple glazing might experience frost on the outside of the glass where double glazing might experience some condensation.

I have been made aware that my blinds might not refit after the installation of my new windows.

I am aware that I need to clear a working area around each window.

I will accept a small disposable sign on my property whilst the installation is taking place.

<b>Nett price</b>	<b>£ 246.42</b>
<b>VAT</b>	<b>£ 49.28</b>
<b>Total to advanced group</b>	<b>£ 295.70</b>
<b>Payable to the fitters</b>	<b>£ 100.00</b>

**Method of payment**

Amount payable to company: £ 395.70
